I have been to test drive a [used BMW 3 Series](#) at Big Motoring World in Kent. They had a superb value used BMW 3 Series Coupe for sale at their car showroom in West Malling. The mileage was a little higher than I would have preferred but after all it is a quality used car and these German manufactured vehicles just keep going and going. I only drive around 10,000 miles per year doing the school run and shopping trips so I will soon even out the mileage. It is has a full BMW service history and even has in car entertainment to keep the kids amused. If the car finance is approved I will leave a deposit.
